

Karla Sofia A. Romantico, RMT

Registered Medical Technologist | Medical Virtual Assistant

Philippines | +63 967 2987 862 | kasromantico@gmail.com

PRC License No. 0114283 | linkedin.com/in/karla-sofia-romantico-rmt-74a114291

PROFESSIONAL SUMMARY

PRC-licensed Medical Technologist with nearly three years in the laboratory of a multi-specialty clinic under Fullerton Health, regularly assigned as Officer-in-Charge of a seven-technologist team. Serves 120 patients daily across all laboratory sections, validates results encoded by other technologists, meets STAT turnaround within one hour, and handles inbound calls from physicians and nursing staff. HIPAA-certified and trained in data privacy and information security. Seeking a permanent work-from-home Medical Virtual Assistant role supporting US-based providers on night shift, with compliant primary and backup workstations already in place.

CORE SKILLS

Clinical: Medical terminology, result verification and validation, critical-value identification and reporting, venipuncture, specimen handling, quality control and calibration, analyzer maintenance

Administrative: Laboratory information system (LIS) data entry, patient intake and pre-test instruction, inbound provider and patient call handling, medical records management, turnaround-time compliance, inventory and expiry monitoring, team supervision

Compliance: HIPAA certified, Data Privacy Act (RA 10173), information security, governance, biosafety and biorisk management

Software: Google Workspace (Sheets, Docs, Gmail, Calendar), Microsoft Office (Excel, Word, Outlook), LIS and barcoding systems

Languages: English (professional working proficiency), Filipino (native)

PROFESSIONAL EXPERIENCE

Medical Technologist

Aventus Medical Care, Inc. – Eastwood Multi-Specialty Clinic (a member of Fullerton Health), Quezon City | October 2023 – Present

- Regularly assigned as Officer-in-Charge of a team of 7 medical technologists, delegating section coverage and acting as escalation point for result and workflow issues.
- Serve an average of 120 patients per day on rotating assignment across all laboratory sections: phlebotomy, hematology, clinical chemistry, clinical microscopy, serology, and drug testing.
- Encode, verify, and release patient results in the clinic's Diagnostic Result System (LIS) with STARLIS barcoding, and validate results encoded by other technologists before release.
- Meet defined turnaround times: 1 hour for STAT, 2 hours for CBC and urinalysis, 24 hours for in-house chemistry.
- Identify and document critical values (approx. 3 per week), escalating each through the laboratory protocol chain (Head Medical Technologist, Clinical Pathologist, Clinic Head) and logging every occurrence in the critical-value register.
- Field inbound calls from physicians and nursing staff on patient results, test availability, and specimen requirements.
- Perform venipuncture and instruct patients on pre-test preparation (fasting, urine and stool collection, repeat samples), and respond to patient inquiries on result availability.
- Run daily quality control and calibration on Nihon Kohden hematology, Wiener Lab CM260 chemistry, and CBS40 electrolyte analyzers; serve as laboratory stock custodian for reagent inventory and expiry; train and orient new technologists and interns.

CLINICAL TRAINING

Medical Technologist Intern

Rizal Medical Center – Department of Pathology and Laboratory Medicine, Pasig City | September 2022 – March 2023

- Performed basic and complex patient testing across clinical microscopy, clinical chemistry, hematology, blood banking, serology, microbiology, and histopathology, on Siemens, Mindray, STAGO, and BioMerieux platforms.

Medical Technologist Intern

Fatima University Medical Center, Antipolo City, Rizal | February – August 2022

- Processed specimens on Roche Cobas and Nihon Kohden analyzers, prepared histopathology tissue blocks, and assisted with patient inquiries.

Phlebotomist

Taguig–Pateros District Hospital, Taguig City | February 2023

- Screened and registered blood donors and performed donor blood collection and labeling under sterile procedure, interacting directly with donors and clinical staff.

EDUCATION

Bachelor of Science in Medical Laboratory Science

Our Lady of Fatima University – Antipolo Campus | Graduated 2023

Dean's Lister, S.Y. 2018–2019. Tanglaw Touch Care Foundation, Inc. Scholar, 2020–2023.
